

Buffy the Vampire Slayer Snog-ometer

from SFX Magazine, July 2003

Snogged 
Dated 
Shagged 
Not sure 

Buffy: She's dated Riley (who later married Sam), Owen (in "Never Kill a Boy on the First Date"), Ford ("Lie to Me") and Scott (her boyfriend in season three). She also slept with Parker ("The Harsh Light of Day"). Plus there's Spike, obviously. We also have no idea if anything happened between her and Dracula - she was in his thrall, after all...

Angel: There's Darla, one-true-love Buffy, Faith (they snogged during "Enemies"), Lilah ("Carpe Noctem"), and a shag with Drusilla started the rivalry with Spike. Angel also had a snog off Gwen ("Ground State") and Fred ("The Magic Bullet"). And remember the Furies? We'll place a bet that Angel's mixed with them at some point, hence the cries of "Mmm, Angel!"

Spike: William's first love was Cecily, who bore an uncanny resemblance to Halfrek, whom

Spike seemed to know when they were introduced in "older and Far Away." What's that about, then? Spike's also poked Anya ("Entropy"), Harmony, and the Buffybot, and brought a goth girl to Xander and Anya's wedding in "Hell's Bells." The love of his life was Drusilla, though; until she ran off with a Chaos Demon and the Buffster came along.

Xander: He's shared one brief kiss with Willow, spent a few months with Cordy and had a one night stand with Faith ("The Zeppo") before Anya came along - and look how that ended! Then there was the teacher who turned into an insect ("Teacher's Pet"), a life-sucking mummy ("Inca Mummy Girl"), and singer Ashanti ("First Date") who tried to sacrifice him to the First. He's doomed.

Willow: A life-long crush on Xander became an affair with Oz, before he had a fling with werewolf Veruca ("Wild at Heart"). Then

Willow found bliss with Tara, who sadly left us, paving the way for Kennedy in Buffy's final season.

Giles: Jenny Calendar was murdered, Joyce Summers died, and whatever happened to Olivia, Giles' "friend" from season four? No-one knows. Even the vampire babes who nearly seduced him in "Buffy vs. Dracula" were already dead! Giles' romantic life certainly isn't alive and kicking.

Anya: Anyanka has fallen in love with Xander and boffed Spike on a table. In her pre-vengeance demon days, however, she was partial to a fella called Olaf, who she turned into a troll after he had an affair with Rannveig ("Selfless").

Cordelia: After she caught Xander kissing Willow in "Lover's Walk," Cordy kissed Wesley ("Graduation Day Part 2") and then

moved to L.A., where William Christopher impregnated her with demon babies ("Expecting"). Urgh. A kiss with Doyle ("Hero") gave her supernatural visions, which led to her meeting Groo. Recently, Angel and Cordelia got a bit hot and heavy in "Waiting in the Wings," Connor and Cordy tangled in "Rain of Fire," and we won't ask just how handy Phantom Dennis was with that loofah...

Wesley: After meeting lips for the last time with Cordy in "Parting Gifts," Wes shacked up with rich girl Virginia Bryce, had wild times with Lilah, and fell in love with Fred. The only other liaison we know of is with a "bleached blonde," as Angel sniffs out in "Dear Boy." That's some sense of smell, mate.

Dawn: The only person Dawnie has ever kissed is a vampire called Justin. Taking after her sister, eh?
